Estimated number of students impacted and how they will benefit-

Although only six of us will be on this trip, the impact of the knowledge we acquire will extend into all areas of the campus. We are hoping to gain insight on how to generate change within our community and to learn the tools necessary to create a campus environment that will support immigrant and undocumented students along with any other group that is underrepresented at PCC. This conference will give us the experience and skills necessary to continue to pursue our own personal projects and better serve during campus activities such as those offered by the Multicultural Center, Social Movements class, and the Social Justice Club. We will use this opportunity to learn as much as we can and to gain credibility when advocating for the needs of all PCC students.
